EXPERIENCE

Poonawalla Fincorp

Pune

Backend Developer - Deputy Manager

Jun 2022 – Present, Full-time

- Worked with **Nest.js, Express.js, Python, Docker, RDS, MongoDB, Kafka and AWS.**
- Design and Implemented a robust payment backend system integrating ICICI Bank's IMPS, NEFT, and RTGS services to manage the company's disbursement process. Implemented a queue mechanism to handle pending payments and prevent duplicate payment requests, ensuring no instances of double disbursement occurred.
- Developed and maintained **microservices architecture** for Instant Loan Web Application.
- Developed and implemented cloud functions to automate manual tasks and facilitate the seamless transfer of data from a legacy system to an ERP system, resulting in increased operational efficiency and streamlined processes.
- Developed **RESTful APIs, Middleware and integrated thirdparty services.**
- Participated in entire software lifecycle, focused on planning, development and debugging.
- Utilized **AWS Lambda** functions for serverless computing, managed data storage efficiently with **Amazon S3** and maintained relational databases with **RDS.**
- Leveraged AWS Serverless technologies, to architect efficient and cost-effective serverless functions.

Finerv

Gurugram

Backend Developer Intern

Jan 2022 – Jun 2022, Full-time

- Worked with **Python, Django, React Js and Node.js.**
- Contributed to a dynamic team focused on the development of a **SaaS-based lending platform.**
